2016 Platinum conference: London is home to some of the most revered world-class attractions including the Tower of London, Abbey Road, The Royal Albert Hall, Big Ben and Buckingham Palace. Join us at the next Canada Life Platinum conference to experience all this and more, May 13 to 18, 2016.

For full qualification details, visit Canada Life RepNet® under Home > Events > Platinum conference.

NEW. BUSINESS. NOW.

A better way to do business
with instant decision and instant approval

It's a historic leap forward for insurance, for clients and for you.

And it's coming this summer.

New Business Now offers secure technology that makes issuing policies faster. You spend less time filling out applications, which means you have more time to focus on clients.

And more time to drive sales.

Your way. Anywhere. Anytime.

When helping clients apply for insurance, how would you rather complete an application: on paper, over the phone or online? The choice is yours.

- **You choose how.** Use a web application on a tablet or computer, or use an updated paper or tele-app. Disability insurance is now included on the tele-app.
- **You choose where.** Access the web app anywhere with an Internet connection.
- **You choose when.** Start a web app at your office, then complete it online in a client meeting.
- **You choose your updates.** When you set up your notification preferences, you decide who receives automatic email updates on your applications – your support staff, business manager or you. And you also decide how often updates are received: daily, weekly or both. Sign up for notification preferences today and you could win a great prize. To enter, visit RepNet under Advisor support > Advertising & promotion.
