

Administrative Tips: Utilizing Digital eApp Technology

Submitted by Victoria on August 25, 2020 - 9:26am

Utilizing Digital eApp Technology ? Face to Face & Non-Face to Face

Congratulations to our Insurance Industry and thanks to advisors utilizing e-Applications. Global has been training and assisting advisors to utilize electronic tools and we like what we see!

The electronic process is smooth, provides correct form usage to prevent missing client information, and in many situations - the underwriting decision is swift and the policy is issued faster than by paper. **Many advisors say they will never go back to paper applications.** If you haven't tried e-Apps, call Krishan Mayer and he'll get you started.

Warm Regards,

Global Pacific
