Provide your clients with the protection they need today and the flexibility to convert to a broad range of permanent plans in the future, with the new SunTerm.

We've got the product you're looking for ? from business owners to family protection. In January, we told you about the new term lengths ? **Term 15** and a **Term 30**, and the increased issue, expiry and conversion ages. But that's not all. Take a look at these leading-edge, optional benefits that we've added to help you grow your business.

The **Renewal protection benefit** offers your clients the option of paying a small additional premium today to have lower renewal premiums in the future when compared to **SunTerm 10** without this benefit. This helps protect clients against steeply increasing renewal premiums and provides more choice for clients who don't want to be underwritten at renewal.

SunTerm is ideal for business owners who want to protect the value of their business. With our wide variety of term lengths and the new **Business value protection benefit** and **Partner protection benefit**, SunTerm offers a flexible, temporary insurance solution for your clients business needs.

[Watch this short video](#) to learn more about these two new benefits that can help you meet each client's unique protection needs.

SunTerm ? another way We Help. You Grow.
